

# PGP Trait & Disease Survey 2012: Skin and subcutaneous tissue

Answering any or all of these questions is entirely optional. Your answers to this survey will be made publicly available on your participant profile. You are not required to report all conditions when completing a survey.

This survey covers traits and diseases of the skin and subcutaneous tissue (ICD-9 codes 680-709, see also: [http://en.wikipedia.org/wiki/List\\_of\\_ICD-9\\_codes\\_680-709:\\_diseases\\_of\\_the\\_skin\\_and\\_subcutaneous\\_tissue](http://en.wikipedia.org/wiki/List_of_ICD-9_codes_680-709:_diseases_of_the_skin_and_subcutaneous_tissue)).

Even if you do not have any of the conditions listed here, submitting a response to this form is informative to us -- it indicates that you have seen the survey and are not reporting any of the conditions listed here.

## 1. Do not touch!

This field is pre-populated by the PGP and identifies which participant you are. If you change it, we will not be able to link your answers to your PGP account.

\*\*\*\*\*

## Skin and subcutaneous tissue traits and disorders

2. **Have you ever been diagnosed with any of the following conditions?**

Check all that apply.

*Check all that apply.*

- ☐ Pilonidal cyst
- ☐ Dandruff
- ☐ Eczema
- ☐ Allergic contact dermatitis
- ☐ Rosacea
- ☐ Psoriasis
- ☐ Lichen planus
- ☐ Keloids
- ☐ Skin tags
- ☐ Hair loss (includes female and male pattern baldness)
- ☐ Alopecia areata
