PGP Trait & Disease Survey 2012: Congenital traits and anomalies

Answering any or all of these questions is entirely optional. Your answers to this survey will be made publicly available on your participant profile. You are not required to report all conditions when completing a survey.

This survey covers congenital traits and anomalies (ICD-9 codes 740-759, see also: http://en.wikipedia.org/wiki/List_of_ICD-9_codes_740-759:_Congenital_anomalies).

Even if you do not have any of the conditions listed here, submitting a response to this form is informative to us -- it indicates that you have seen the survey and are not reporting any of the conditions listed here.

1. **Do not touch!**
   This field is pre-populated by the PGP and identifies which participant you are. If you change it, we will not be able to link your answers to your PGP account.
